Our services include:

- Top-dressing lawns, Terra-seeding,
- Green-roof installation, Erosion Control,
- Playground safety chips, Landscape mulches & soils,
- Aggregate placement

Our Express Blower TR-HD is perfect for any green roof, erosion control, or construction site for the blown-in installation of aggregates, soil blends, composts, and mulches! In addition, it has a vertical reach of more than 20 stories or distances up to 2,000 feet!

Our Express Blower EB-60 can place up to 70 yards per hour of mulches, compost, soil blends, wood chips, and some small aggregates.

Cherokee Materials possesses special equipment which can provide material delivery and installation to the erosion-control, green-roof, construction, landscape and agricultural industries.
